

Login with GPO

1. Navigate to Login

Begin by navigating to the official GPO Identity Management Service homepage. This central hub manages all GPO applications.

 Click on Login button on homepage

2. One-Click Authentication

Single Sign-On (SSO)

Instead of manually entering your email and password, use your existing GPO account for instant access.

-  Locate the **Sign in with GPO** button.
-  Click the button to initiate the SSO flow.
-  System automatically verifies your institutional identity.
